

The Mill*

**People making things happen*

MISSION, VISION, VALUES
STRATEGY 2013-2015

Our Vision is of a strong local community where people love to live, and know and care for their neighbours.

Our Mission is to provide a welcoming, positive, accessible and inclusive space at the heart of Walthamstow, and work with the community locally to make things happen.

Our Values are at the heart of everything we do:

- **We are for everyone:** We are welcoming to everyone. We believe that everyone has a role to play and skills to share. We believe in reflecting the balance of abilities and passions in our community.
- **We believe in people:** We believe in the unique capacities and passions that individuals bring, and work with them to make their ideas happen.
- **We focus on local community:** We love our local area, and trust the community to shape and know how to develop its potential.
- **We believe in the power of creativity:** Imagination and creativity can help people to see things differently, express themselves and inspire others.

The Mill has been on an incredible journey in the last two years as we restored and repaired our building, and worked together to make things happen in our community. In order to build on these great foundations, and to continue to make a positive difference in Walthamstow in the next 2-3 years we will focus our attention on the following areas:
